Finding Cases Needing Closure

Summary: This report provides a list of active cases that were created prior to the date specified but have had no Transmittals since that date.

Who can run this Report?

ICPC Coordinator and State Admin

Application to Practice: This report may be used to identify cases where there have not been transmittals sent/received since the date selected, to determine the appropriate action needed on the case. A case should not be closed without communication with the other state.

User Input: User is required to select the following criteria to run this report:

- **Transmittal Date** – User shall provide the transmittal date. The report output will list active cases that were created prior to the date specified but have no transmittals after this date
- **Case Type**
 - Sent To – The report provides the list of active cases where the Transmittal is “Sent to” the state specified prior to the transmittal date and no transmittals after
 - Received From – The report provides the list of active cases where the Transmittal is “Received from” the state specified prior to the transmittal date and no transmittals after
- **State** – User shall provide the state name “Sent to” or “Received from”. User can also choose “All” to get a list for all states.

✓ FIND CASES NEEDING CLOSURE

This report provides a list of cases that were created prior to the date specified, but have no Transmittals after that date.

* Transmittal Date	* Case Type	* State
<input type="text"/>	<input type="text" value="Select"/>	<input type="text" value="Select"/>
		
 Search	 Reset	

Report Functions:

- User is navigated to case when clicked on the NEICE ID.
- The report can be exported to a PDF file or an Excel file.
- The report can be printed.

Report Calculations:

- Report provides a list of active cases for which transmittals were sent before the “Transmittal Date” specified by the user but no transmittals, “Sent to” or “Received From” the state specified by the user, after that date.
- If State is specified as “All”, the report lists all active cases for which transmittals were sent before the “Transmittal Date” specified by the user but no transmittals, “Sent to” or “Received From” all states.

Output Structure of the Report

The report displays the total list of cases for which the transmittal was “Sent to” or “Received From” the state specified and those created prior to the date specified but have no Transmittals after that date along with associated **NEICE ID, Regulation Type, Last Transmittal Date, Case Status**

Requests Sent to Agencies by ICPC Central Office (Receiving State Only)

Summary: This report provides a list of cases that were sent to an agency or all agencies within the state during the specified date range including the Home Study Decision.

Who can run this Report?

ICPC Coordinator and State Admin

Application to Practice: Helps to manage and track cases sent to agencies. If “List” is selected the report provides the Safe and Timely Due Date (“SaTA Due Date”) with status of the Home Study Decision to help with monitoring timeliness for each agency.

User Input: User is required to select

- Date Range – Date from and Date To
- HS Status – User shall Select the Case Status as “Pending”, or “All”
- Agency - User shall Select any agency in the logged in state from the drop down or select “All”
- Report Output Format
 - a. Counts Only – The report provides only the counts.
 - b. List - The report provides the complete list.

✓ REQUESTS SENT TO AGENCIES BY ICPC CENTRAL OFFICE (RECEIVING STATE ONLY)

This report provides a list of cases that were sent to an agency or all agencies within the state during the specified date range including the Home Study Decision.

* Date From

* Date To

* HS Status

Children Over the Age of Majority

Summary: This report provides a list of Children whose age exceeds the state's age of majority as of the current date.

Who can run this Report?

ICPC Coordinator and State Admin

Application to Practice: This report may help with caseload management to help identify cases for closure and determine when a child is still eligible for Title IV-E funding.

User Input: User is required to select

- Case Type
 - a. Sent To – The report provides the list of cases where the Transmittal is Sent to the state specified
 - b. Received From – The report provides the list of cases where the Transmittal is received from the state specified
- State – User shall provide the state name
 - Counts Only
 - Complete list

✓ FIND CASES NEEDING CLOSURE

This report provides a list of cases that were created prior to the date specified, but have no Transmittals after that date.

* Transmittal Date

* Case Type

* State

Search

Reset

Report Functions:

- Users is navigated to case when clicked on the NEICE ID.
- The report can be exported to a PDF file or an Excel file.
- The report can be printed.

Report Calculations:

- The Age of majority is taken for the logged in user state as defined under each state respectively.
- Report provides all the children (Title IVE eligibility is No or Pending) and the age of majority is greater than or equal to the age of majority of the logged in user state as of current date.
- Report provides all the children (Title IVE eligibility is Yes) and the age of majority is greater than or equal to 26 years as of current date.

Output Structure of the Report

The report displays the total list of cases for which the transmittal was “Sent to” or “Received From” the state specified and those created prior to the date specified but have no Transmittals after that date along with associated **NEICE ID, Child ID, Date of Birth, Age, Case Status, Title IV-E Eligibility**

Children Placed In State / Out Of State

Summary: This report provides a list of children placed in state or placed out of state during the specified date range based on an agency or all agencies selected.

Who can run this Report?

ICPC Coordinator and State Admin

Practice Application: May help with caseload management to identify children with regulation types, placement dates and sending state. Could help with monitoring supervision cases.

User Input: User is required to select

- Date Range – Date from and Date To
- Children Placed – User can choose “In State” or “Out of State”
- State
 - In State – Value will be defaulted to logged in user state
 - Out of State – User needs to specify the state name for which the report is being extracted
- Agency - User shall Select any agency in the logged in state from the drop down or select “All”
- Report Output Format
 - Counts Only – The report provides only the counts.
 - List - The report provides the complete list.

The screenshot shows a web interface for a report titled "CHILDREN PLACED IN STATE / OUT OF STATE". Below the title is a descriptive sentence: "This report provides a list of children placed in state or placed out of state during the specified date range based on an agency or all agencies selected." The form contains several input fields and dropdown menus, each preceded by a red asterisk indicating a required field. These are: "Date From" and "Date To" (text input fields with calendar icons), "Children Placed" (a dropdown menu currently showing "In State"), "State" (a dropdown menu currently showing "District of Columbia"), "Agency" (a dropdown menu currently showing "All Agencies"), and "Report Output Format" (a dropdown menu currently showing "List"). At the bottom of the form are two buttons: a teal "Search" button with a magnifying glass icon and a light blue "Reset" button with a circular arrow icon.

Report Functions:

- User is navigated to the case when clicked on the NEICE ID.
- The report can be exported to a PDF file or an Excel file.
- The report can be printed.

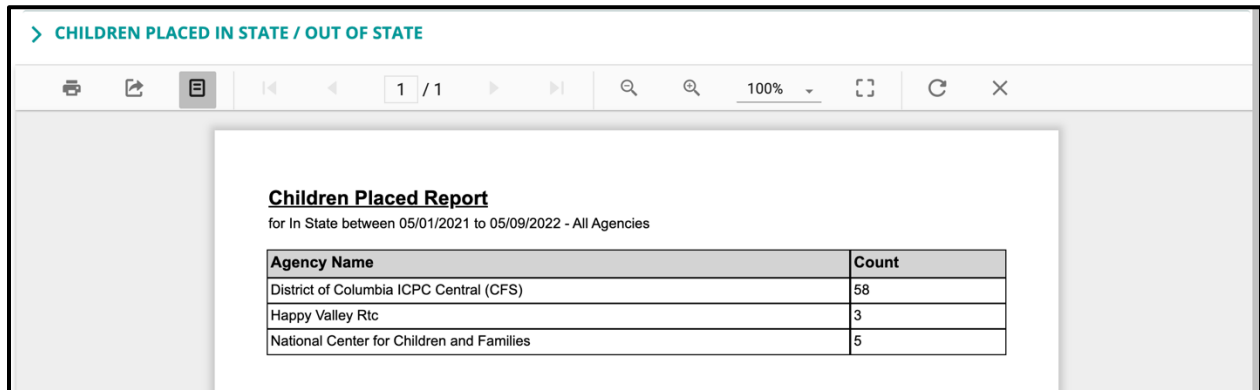

Report Calculations:

Report displays cases for which “Date Child Placed in Receiving State” field on the 100B Placement. Data is available within the specified Date Range

Output Structure of the Report

Count – If the Report output format is chosen as “Count” , the report displays only the count of the cases based on State selection (In State or Out of State) and date range.

100B Termination Statistics Report

Summary: This report provides a list of cases that have been terminated during a specified date range based on Date of termination on the 100B and the case type as Sending or Receiving. The user may also specify a single agency or “all” agencies within the state.

Who can run this Report?

ICPC Coordinator and State Admin

Application to practice: Provides a list of closed cases and includes options to sort the total cases by:

1. Placement type
2. Reason for Termination
3. Reg Type

User Input: User is required to select

- Date Range – “Date From” and “Date To”
- Case Type
 - a. Sending – The report provides the list of cases that have been terminated during the Specified Date Range where the logged in user state is the Sending state of the case.
 - b. Receiving – The report provides the list of cases that have been terminated during the Specified Date Range where the logged in user state is the Receiving state of the case.
- Agency
User can specify a specific Agency name in the state or choose “All” to list the cases from all agencies in the state.

The screenshot shows the '100B TERMINATION STATISTICS' report interface. It includes a title bar with a checkmark icon and the text '100B TERMINATION STATISTICS'. Below the title bar is a descriptive sentence: 'This report provides a list of cases that have been terminated during a specified date range based on Date of termination on the 100B.' The form contains four input fields: 'Date From' and 'Date To' (both with calendar icons), 'Case Type' (a dropdown menu currently showing 'Sending'), and 'Agency' (a dropdown menu currently showing 'Select'). At the bottom of the form are two buttons: 'Search' (with a magnifying glass icon) and 'Reset' (with a circular arrow icon).

Report Functions:

- User is navigated to the case when clicking on the NEICE ID.
- The report can be exported to a PDF file or an Excel file.
- The report can be printed.

Report Calculations:

- Report provides all cases which have a “100B Termination Date” within the Date range specified by the user. So, in order for a case to appear in the 100B Termination Report, a user must have created a 100B Closure for the case.

Output Structure of the Report

The report displays the total list of cases with 100B Termination Date within the user specified Date Range, along with the associated **NEICE ID, Child ID, Child Name, Type of Care, Receiving/Sending State, Reason for Termination, Termination Date, Regulation Type, Case Status**

✓ 100B TERMINATION STATISTICS

This report provides a list of cases that have been terminated during a specified date range based on Date of termination on the 100B.

Violation Statistics Report

Summary: This report provides a list of cases where a state is in violation based on a specified date range and role of either sending or receiving state in a case that the logged in user's state is a participant.

Who can run this Report?

ICPC Coordinator and State Admin

Application to practice: This report may help identify areas a state may need additional training, supervision, or support.

User Input: User is required to select

- Date Range – “Date From” and “Date To”
- Case Type
 - a. Sending – The report provides the list of cases that have been terminated during the Specified Date Range where the logged in user state is the Sending state of the case.
 - b. Receiving – The report provides the list of cases that have been terminated during the Specified Date Range where the logged in user state is the Receiving state of the case.
- Report Output Format
 - a. Counts Only – The report provides only the counts.
 - b. List - The report provides the complete list.

The screenshot shows a web interface for the 'VIOLATION STATISTICS' report. At the top, there is a teal checkmark icon followed by the title 'VIOLATION STATISTICS'. Below the title is a descriptive paragraph: 'This report provides a list of cases where a state is in violation based on a specified date range and role of either sending or receiving state in a case that the logged in user's state is a participant.' Below this text are four input fields, each with a red asterisk indicating a required field. The first field is 'Date From' with a calendar icon, showing the date '03/02/2020'. The second field is 'Date To' with a calendar icon, showing the date '03/18/2022'. The third field is 'Case Type' with a dropdown arrow, showing 'Receiving'. The fourth field is 'Report Output Format' with a dropdown arrow, showing 'Select'. Below these fields are two buttons: a teal 'Search' button with a magnifying glass icon and a light blue 'Reset' button with a circular arrow icon. The 'Report Output Format' dropdown menu is open, showing three options: 'List' (highlighted in light grey), 'Counts Only', and 'Select'.

Report Functions:

- User is navigated to the case when clicked on the NEICE ID.
- The report can be exported to a PDF file or an Excel file.
- The report can be printed.

Report Calculations:

- This report identifies cases where sending state A placed receiving state B in violation or vice versa.

- The report lists all cases that are in violation based on the Date Range specified by the user as input. The data is extracted from the information entered in the Case Details page of the case as shown in the screenshot below.

State System – NEICE Comparison Report

Summary: This report will list the children either not in SACWIS or data differences between NEICE/SACWIS

Who can run this Report?

ICPC Coordinator and State Admin

Practice Application:

This Report is used by states with an interface between NEICE CMS/MCMS and state's child welfare information system to compare the data differences.

User Input: User is required to select

- Date Range – Date from and Date To

A screenshot of a web form titled "STATE SYSTEM - NEICE COMPARISON REPORT" with a green checkmark icon. Below the title, it says "This report will generate the State System - NEICE Comparison Report". There are two date input fields: "* Date From" and "* Date To", each with a calendar icon. At the bottom, there are two buttons: "Search" with a magnifying glass icon and "Reset" with a circular arrow icon.

Report Functions:

- The report can be exported to a PDF file or an Excel file.
- The report can be printed.

Report Calculations:

1. This report shall provide data when the logged in state has elected to connect their SACWIS system for an exchange of Child and Placement Resource data.
2. The report shall provide a list of NEICE Children either not in the State System/SACWIS or with different data in the State System/SACWIS than data in NEICE.

Output Structure of the Report

The report will display the list of NEICE Children either not in the State System/SACWIS or with different data in the State System/SACWIS than data in NEICE along with the below fields

- NEICE Child ID
- Child Name
- Child DOB
- Is Child in State System (Y/N)

- State ID
- Child Info matches with State System (Y/N)

AAICPC Data Report

Summary: This report provides the total number of children placed for the Month and Year selected or the Date Range selected for the logged in user state.

Who can run this Report?

ICPC Coordinator and State Admin

Practice Application: This report is used by states to submit monthly data to the AAICPC.

User Input: User is required to select

- **Date Range** – Date from and Date To (Mandatory) or Year and Month (Mandatory)
- **State** – This is defaulted to the logged in state of the user

✓ AAICPC DATA REPORT

Based on the logged in user state data only, this report provides totals for the month and year selected.

* Date From	* Date To	* Year	* Month	* State
<input type="text"/>	<input type="text"/>	Select	Select	Florida

Report Functions:

- The report can be exported to a PDF file or an Excel file.
- The report can be printed.

Report Calculations:

1. Home Studies Request In - The number of Regulations 1, 2, and 7 Home Studies received during the month.
2. Home Studies Request Out- The number of Regulations 1, 2, and 7 Home Studies sent during the month.
3. Placements In - This is calculated based on the Placement Made On date entered by the user on the case details screen during the month for your state as the receiving state. If the users did not enter the date, the placement will not be counted in the report.
4. Placements Out - This is calculated based on the Placement Made On date entered by the user on the case details screen during the month for your state as the sending state. If the users did not enter the date, the placement will not be counted in the report.
5. Private Adoptions In – The number of Regulation 12 Home Studies received in your state during the month.

6. Private Adoptions Out - The number of Regulation 12 Home Studies that are sent from your state during the month.
7. Residential Request In - The number of Regulation 4 Home Studies that received in your state during the month.
8. Residential Request Out - The number of Regulation 4 Home Studies that are sent from your state during the month.

Output Structure of the Report

- Home Studies Requests in
- Home Studies Requests out
- Placements In
- Placements Out
- Private Adoptions In
- Private Adoptions Out
- Residential Request In
- Residential Request Out

✓ AAICPC DATA REPORT

Cases By IV-E Eligibility

Summary: The report provides the Count or List of cases by child where the Title IV E Eligibility is Yes or Pending for Regulation Types 1,2 and 12.

Who can run this Report?

ICPC Coordinator and State Admin

Practice Application: This report is used by states to track Title IV E Eligibility status.

User Input:

- Date Range – Date From and Date To (Mandatory)
- Reg Type – Drop down has the following options
 - All
 - REG 1 – Intact Family Relocation
 - REG 12 - Private adoption
 - REG 2 – Home Study Request
- Type of Care - Drop down has the following options
 - All
 - Adoptive Home
 - Foster Family Home
- Case Status – Drop down has the following options
 - All
 - Active
 - Closed
 - Pending
 - Receiving
- Report Output Format (Mandatory)
 - a. Counts Only – The report provides only the counts.
 - b. List - The report provides the complete list.

✓ CASES BY IV E ELIGIBILITY REPORT

This Report is used by states to get count of cases by child Title IV E Eligibility.

Report Functions:

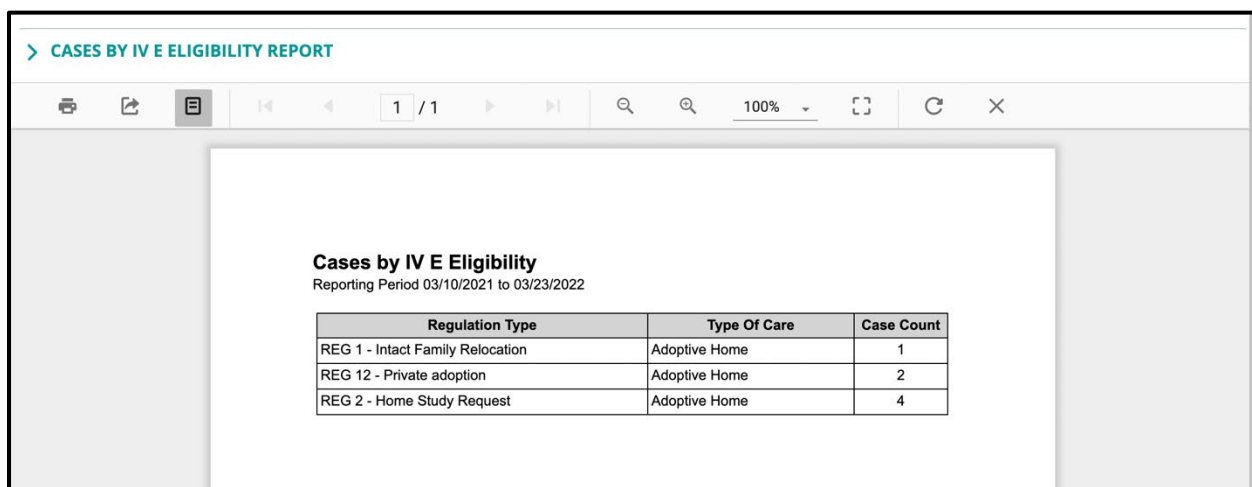

- User is navigated to the case when clicked on the NEICE ID.
- The report can be exported to a PDF file or an Excel file.
- The report can be printed.

Report Calculations:

- Report provides all the cases created within the specified Date Range, in which the child(ren) has Title IV E as Yes or Pending for the specified Regulation Type and Type of Care based on the Case Status selected by the user as input.

Output Structure of the Report

- a) **Count** – If Report output format is chosen as “Count” report displays only the count of the cases.

The screenshot displays a web application interface for a report titled "CASES BY IV E ELIGIBILITY REPORT". The interface includes a toolbar with icons for print, share, and a table view (which is active). It also shows navigation controls (back, forward, first, last), a page indicator "1 / 1", search icons, a zoom level of "100%", and window management icons. The main content area displays the report title, the reporting period "03/10/2021 to 03/23/2022", and a table with three columns: "Regulation Type", "Type Of Care", and "Case Count".

Regulation Type	Type Of Care	Case Count
REG 1 - Intact Family Relocation	Adoptive Home	1
REG 12 - Private adoption	Adoptive Home	2
REG 2 - Home Study Request	Adoptive Home	4

- **List** – If Report output format is chosen as “List” report displays the list of all the cases created within the specified Date Range, in which the child(ren) have Title IV E information for the specified Regulation Type and Type of Care based on the Case Status selected, along with associated **NEICE ID, Interstate Case ID, M/CMS Child ID, Interstate Child ID, Child Name, Child DOB, Child Title IV E, Case Type, Regulation Type, Type of Care, Case Status, Other State Involved**
